

Survey # WA-II-1055

Approximate date Ca. 1890

Street Address 24 South Main Street

Town, State Keedysville, Maryland

private X, public     

Description

The house is a two story, five bay brick structure laid in common bond with segmental arches above the openings. Windows have two over two pane sash and there is a semi-hexagonal projecting bay at the south end of the front elevation. A feature of this house is the bracketed cornice which extends across the front, supported by doric columns. The main entrance is located in the central bay and consists of double doors beneath a segmentally arched transom. A low stone retaining wall separates the house lot from the street.

According to local historians, this house was built by the Line family. It is typical of turn-of-the-century period brick construction in the region.
